

Spring Excursion

NUGELP Spring Excursion trip took place on June 1 and 2. 25 students and 5 instructors/staff participated and visited Wind/Thermal/Solar Power Plants as well as Toyota's Ecoful Town in Toyota City, Aich Prefecture. In addition to conventional power generations, students got to learn about renewable energy which is more environmentally friendly, and they also saw the future of power generation in Ecoful Town. In Megasolar Taketoyo, NUGELP had an honor to be the 7,500th visitor and they held a ceremony to celebrate it. The trip was the first overnight trip after we have received new students since this April, which made the trip a very good opportunity to know their fellow students as well as instructors/staff. Students had a wonderful time on the trip.
