

NUGELP International Forum

On November 22, NUGELP hosted an international forum, titled “Forum on Advanced Education for Global Environmental Leaders – Focusing on Sustainable Development in Asia and Africa – ” and more than 140 people turned out.

In the morning session, Professor Nagaishi presented NUGELP’s activities and achievements. Alumni and the current students of NUGELP also spoke about their experiences in NUGELP. For keynote speech, Professor Miranda Schreurs was invited to speak about Climate Change Policies especially in the EU and Japan. In the afternoon, we invited environmental leaders from several countries in Asia and Africa to talk about their efforts to protect environment. Throughout the forum, there was a very active discussion, which made the event very productive.
