

Awaji Domestic Tour 2014

On the 20-21 of August, NUGELP conducted a study tour to Hyogo Prefecture. The students and staff visited the Nippon Steel & Sumitomo Metal Corporation's Hirohata Works, Nojima Fault Preservation Museum, and the Akashi Kaikyo Bridge, all in Hyogo Prefecture, in order to study about related environmental issues.

NUGELP students at Akashi Kaikyo Bridge

Exhibit of pictures in the Nojima Fault Preservation Museum

Exhibit of damages in the Nojima Fault Preservation Museum

Exhibit of a house which sustained earthquake damage in the Nojima Fault Preservation Museum
