

NUGELP Closing Ceremony AY2015 Spring

Closing Ceremony was held by NUGELP on March 25.

In the ceremony, 16 master course students and 2 doctor course students received their certificates. Subsequently, Prof. Hiroki TANIKAWA (the program leader; Department of Environmental Engineering and Architecture, Graduate School of Environmental Studies) and Prof. Masaki NAKANO (head of the Department of Civil Engineering, Graduate School of Engineering) congratulated them upon their successful completion of NUGELP program.

Mr. Shohei KURODA (Graduate School of Environmental Studies, from Japan) and Mr. Derrick AYEBAZIBWE (Graduate School of Engineering, from Uganda) as student representatives gave speeches about his experience in NUGELP.

“Standing here before you, am reminded of the journey that led to this moment;...the very interesting *tomodachi* (friends) that I have made along the way and the awesome program *Sensei*(teacher)’s that I will never forget and hope to meet in the future.”

By Mr. Derrick AYEBAZIBWE

“This two years have been intense, precious and too short. There is a saying “Time flies like an arrow.”, and I feel that these two years passed over like a shinkansen.” ... “We have many international students in this fantastic university, especially in the NUGELP course, and the experiences that I shared with them are very precious to me. For example, what shocks them when they come to Japan is quite important if I want to become an international person. Explaining them Japanese culture, customs and tradition was my duty and my pleasure. In this sense, NUGELP is an unvaluable opportunity, and I am extremely grateful for having been part of this program.”

By Mr. Shohei KURODA

Congratulations to all graduating students! We wish you all the best and a bright future ahead of you!!

Dr. Chidammodzi and Prof. Tanikawa
